Chapter 1: Visual Hierarchy and Grid Foundations

Design is not just what it looks like; design is how visual communication works.

1. THE RULE OF THIRDS & THE F-PATTERN:

- Place key focal points along horizontal and vertical third-lines.
- Mobile readers scan in an F-shaped trajectory: Top headline -> Subhead -> First button.

2. TYPOGRAPHIC SCALE (The 3-Font Maximum):

- Header Font: Bold, high personality (Montserrat, Oswald, Playfair).
- Body Font: Clean, neutral readability (Inter, Open Sans, Roboto).
- Accent Font: Handwritten or italic (use on fewer than 5 words per banner).

3. COLOR HARMONY (60-30-10 RULE):

- 60% Dominant background color (white, light slate, or dark navy).
- 30% Structural secondary color (slate gray, card fills, borders).
- 10% High-contrast accent color (emerald green, vibrant orange for CTAs).
